DETAILED ACTION

1. This is the First Office Action on the Merits from the examiner in charge of this application.

Election/Restrictions

2. Applicant's election without traverse of Group II in the reply filed on 7/17/2006 is acknowledged.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term "and/or" is vague, thus indefinite for failing to clearly define the metes and bounds of the claimed invention.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by USP 4,019,793 to Gerding.

Gerding discloses a medication storage cart comprising a plurality of drawers 166 for the storage and transporting of medications, a liner 178 positioned in one of said

drawers 166, said liner being sized and configuration to be disposed within and generally conform to said drawer, such as shown in Figs 7 a & c, and having an open top and a sealable cover 184 disposed over said open top, wherein casters are provided thereto in order to transport the cart between various locations in a hospital. Since Gerding discloses all the structural limitations recited in the claim, it is inherent that Gerding may perform all the method steps recited therein.
